

VOLVO CUSTOMERS LOVE THE VN 780

“THE VOLVO VN 780 IS THE MOST COMFORTABLE TRUCK I’VE EVER DRIVEN.”

Clint Baillie, Company Driver

Clint and Cherie Baillie with their “*comfort machine*” - a 2007 Volvo VN 780.

Clint Baillie has logged over one million miles in his 14 years of driving a heavy-duty truck. But none have been more pleasurable than the miles he’s driven since taking the wheel of a Volvo VN 780.

“I’ve driven Kenworths, Peterbilts, Freightliners . . . you name it and I’ve driven it. But nothing I’ve experienced to date even comes close to the comfort and ride of this Volvo 780.

“I grew up breaking race horses for a living. I’ve been thrown so many times I’ve broken my legs, dislocated my shoulders and sustained other injuries that make long hours behind the wheel of a truck pretty uncomfortable. In other trucks I’ve driven I would be stiff and sore after only a couple of hours on the road. One of the first things I noticed with the Volvo 780 is that I can drive all day and feel as good at the end of my shift as I did at the beginning. Part of the reason is because the ride is so smooth. You don’t feel every bump and pothole in the road. My wife, Cherie, often rides with me and says it’s like riding in a Cadillac.

“The interior of the 780 is also phenomenal. I like all the controls and gauges at my fingertips. The sleeper compartment is well designed with plenty of cabinets, drawers and closet space. The refrigerator is larger than what’s available in other brands, and the bunk is not only a good size, you can actually sleep comfortably in it! I used to dislike driving team because you couldn’t sleep for all the noise and bouncing around in the bunk. But in the 780 that’s never a problem because the truck just glides down the road and the bunk area is quiet and comfortable. I like the looks of a 780 as well, and its aerodynamic design contributes to good fuel economy which is important with the high cost of diesel today.

“I would definitely recommend the Volvo VN 780 to anyone who is looking for superb ride, comfort, spaciousness and fuel efficiency. In my opinion, nothing else compares.”
