TULSA TECH: A LEGACY OF EXCELLENCE IN TECHNICAL TRAINING

Established in 1965, Tulsa Technology Center, Public School District #18, stands as the oldest and largest technology center in Oklahoma. Accredited by the Oklahoma Department of Career and Technology Education, Tulsa Tech provides comprehensive technical training to high school students and adults within the Tulsa metropolitan area. With six specialized campuses across the region, Tulsa Tech caters to a diverse range of industry needs, ensuring that students are well-prepared for success in the workforce.

Professional Truck Driver Training Program

Among the various programs offered, Tulsa Tech's Professional Truck Driver Training program is particularly noteworthy. Recognized by several major trucking companies as one of the top training schools in the nation, this program has made significant strides since its inception in March 2016. Initially starting with two 2017 Volvo VNL 670 trucks, the program has expanded its fleet and training facilities to meet growing demand.

Donnie Tulk, Program Coordinator, regularly shares insights on training entry-level truck drivers on Sirius XM's Road Dog Trucking channel, the Dave Nemo Show. He emphasizes the importance of training student drivers in the safest and most reliable trucks available. "We have found that the reliability and safety of Volvo trucks are unprecedented. We train student drivers and want to make sure they are training in the safest trucks on the road, in my opinion," says Tulk.

"We have found that the reliability and safety of Volvo trucks are unprecedented. We train student drivers and want to make sure they are training in the safest trucks on the road."

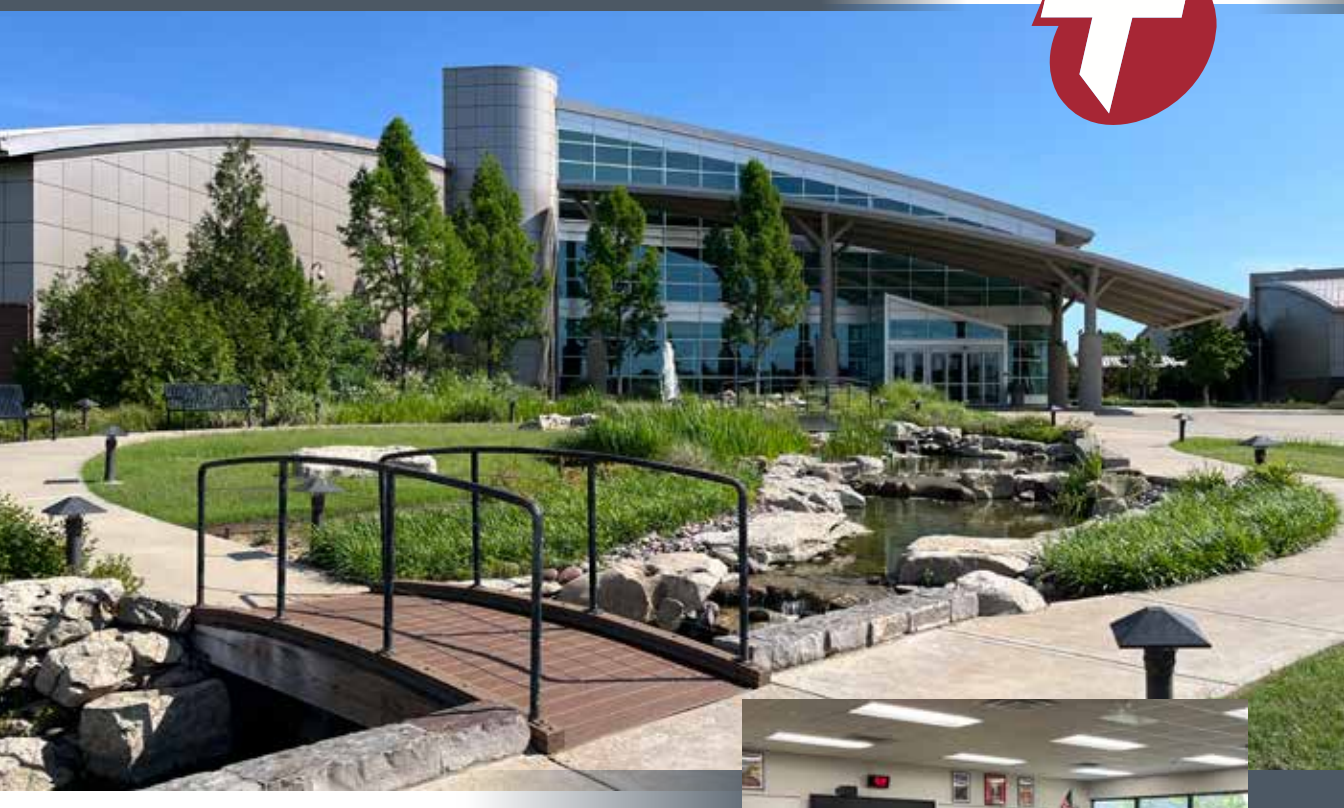

Donnie Tulk, Tulsa Tech Program Coordinator

Looking to the future, Tulsa Tech plans to continue growing the Professional Truck Driver Training program. This includes expanding the driving range and adding three new Volvo VNR 640 tractors. The goal is to ensure that students have access to the latest technology and safest vehicles as they prepare for their careers in trucking.

“I don’t think we could have a better relationship with any other dealer like we have with Bruckner’s Truck and Equipment. From Dale Yommer, Tulsa General Manager, to the shop technicians, they all truly care about us as a customer and are always willing to do the right thing.”

Donnie Tulk, Tulsa Tech Program Coordinator

Industry Partnerships and Expansion Plans

Tulsa Tech’s collaboration with Bruckner’s Truck and Equipment has been a cornerstone of the program’s success. Donnie Tulk highlights the exceptional relationship with Bruckner’s, praising their customer service and commitment to meeting the program’s needs. “I don’t think we could have a better relationship with any other dealer like we have with Bruckner’s Truck and Equipment. From Dale Yommer, Tulsa General Manager, to the shop technicians, they all truly care about us as a customer and are always willing to do the right thing,” he says.

Looking to the future, Tulsa Tech plans to continue growing the Professional Truck Driver Training program. This includes expanding the driving range and adding three new Volvo VNR 640 tractors. The goal is to ensure that students have access to the latest technology and safest vehicles as they prepare for their careers in trucking.

Tulsa Tech prides itself on its mission to educate individuals for success in the workplace. The institution’s dedication to providing high-quality technical training and fostering strong industry partnerships ensures that its students are well-equipped to meet the demands of today’s job market.

Steve Sorrell, Bruckner's of Oklahoma Regional Sales Manager, acknowledges the impact of Tulsa Tech on the industry. "Donnie and Tulsa Tech have been well-respected in our industry for some time. His team's impact on tomorrow's drivers is something that we are proud to be a part of by providing today's technology and Volvo's safety and durability. It has been a great partnership," says Sorrell.

Justin Picolet, Tulsa Truck & Trailer Salesman, echoes these sentiments, stating, "It has been an honor working with Donnie and his team at Tulsa Tech, the premier driving training school in the country. We look forward to continuing this great partnership."

Commitment to Excellence

Tulsa Tech prides itself on its mission to educate individuals for success in the workplace. The institution's dedication to providing high-quality technical training and fostering strong industry partnerships ensures that its students are well-equipped to meet the demands of today's job market. As Tulsa Tech continues to expand and innovate, it remains a pivotal institution in shaping the future of technical education and workforce development in Oklahoma.

"Under the leadership and passion for educating people for the workplace, our Superintendent/CEO, Dr. Steve Tiger, has propelled the Broken Arrow Campus Professional Truck Driving Program forward," shares Jerry Bogle, Tulsa Tech Broken Arrow Campus Director. "The Broken Arrow Campus for Tulsa Tech is proud to be the largest overall transportation program in the nation. We are dedicated to providing the best qualified CDL drivers on the road as well as fully prepare our future service technicians to keep America's trucks going. Whether it is driving trucks or working on them, Tulsa Tech is equipping individuals to meet the industry's needs!"

"We look forward to continuing a long-lasting relationship with Bruckner Truck and Equipment as our dealer of choice," Tulk concludes.

We are dedicated to providing the best qualified CDL drivers on the road as well as fully prepare our future service technicians to keep America's trucks going.

Jerry Bogle, Tulsa Tech Broken Arrow Campus Director

WHEEL END AND STEERING

MAKING THE ROADWAYS SAFER

Safety is our guiding belief, our true north. It's what drives us to engineer products that are safer and inherently better because they last longer, perform exceptionally and save you money. That's what you get when you put safety first.

Auto-Torq[®] Axle Fastener

STEMCO is changing the game on wheel ends again. With the Auto-Torq axle fastener, installation has never been easier. Auto-Torq sets the wheel end in optimum bearing adjustment for maximum life.

Discover[®] XR

True innovation for the wheel seal market. Equipped with patented GlideLock technology.

Qwikkit[®] King Pin Kits

Keeping fleets on the road longer. Trust the King Pin Experts! Designed for durability and tested for toughness.

Qwiktie[®]

Highly adaptable for maximum efficiency. Patented design increases simplicity and safety. STEMCO QWIKTIE offers a highly adaptable solution that can accommodate over 80% of straight tie rod lengths with just two part numbers.
